Deborah and Sara,

Not sure if you are both aware of Region 9's pending request that EPA take over (from the Corps of Engineers) the CWA jurisdictional determination for Cargill corporation's Redwood City salt processing facility site. It is on SF Bay, and was converted from marsh decades ago with various berm and other hydrologic modifications.

(b)(5) [REDACTED] A decision on the Special Case request must be made by May 29<sup>th</sup>, and I wanted to ensure you were aware of this and are able to ask questions about implications or weigh in as you wish. I've highlighted in red font an aspect that may be of particular interest/concern for OWM.

Let's plan to talk on Tuesday.
